# **Application Note**

## **Isolation of Human Tumor Cells** with Collagenase NB 8 Broad Range

## **Product Information Collagenase NB 8 Broad Range**

Collagenase NB 8 Broad Range is designed for dissociation of different tissues to isolate various cell types, e.g. tumor cells from human breast, uterus, tyroid gland or lung. Purified Collagenase NB 8 Broad Range is characterized by an increased collagenase activity and reduced levels of other proteases and bacterial

## Specification

endotoxins.

Collagenase activity ≥ 0.9 U/mg (PZ\*) Neutral protease activity  $\leq 0.2 \text{ U/mg (DMC)}$ Trypsin-like activities  $\leq$  0.5 U/mg (BAEE) Endotoxin ≤ 100 EU/mg

\* PZ units acc. to Wünsch

The lot-specific activities of Collagenase NB 8 Broad Range are stated on the certificate of analysis which is attached to every delivery.

#### Storage conditions

Collagenase NB 8 Broad Range is provided as a lyophilized powder and should be stored in a dry environment at +2 to +8 °C.

Stock solutions can be 0.2 µm filtered and stored at -20 °C for 1 year without loss of activity.

## **Isolation of Tumor Cells from Human Breast, Uterus, Tyroid Gland or Lung**

Recommended Starting Conditions	
Concentration of Collagenase NB 8 Broad Range	3.5 - 5.5 PZ U/mI*
Isolation Conditions	3 – 5 h, 37 °C

<sup>\*</sup>PZ units acc. to Wünsch

In general the required collagenase concentration depends on tissue type and origin as well as isolation procedure. Therefore Collagenase NB concentrations stated above should be considered as starting points and progress of the digestion process should be monitored visually in order to determine the optimal conditions.

The digestion process can be stopped by adding EDTA, cooling down or diluting the digestion solution.

It is recommended to measure the concentration of the collagenase solution in PZ U/ml and not in mg/ml.

This ensures optimal reproducibility of isolations with collagenases from different lots, although Nordmark guarantees a high lot-to-lot consistency.

### **Ordering Information**

Enzyme	Cat. No.	Pack size
Collagenase NB 8 Broad Range	S1745601	250 mg
Collagenase NB 8 Broad Range	S1745602	1 g
