

New sales structure for Collagenase NB – From January 2026

For more than 20 years Nordmark Pharma GmbH has been manufacturing Collagenase NB products for research and clinical applications. Since the beginning **Nordmark and SERVA** have been working together. The close collaboration of Nordmark as pharmaceutical manufacturer and SERVA as experienced logistic and distribution partner has always been an important key factor for the success of our high-quality enzymes.

In order to further expand our **successful collaboration**, we are happy to announce that our long-standing partner SERVA Electrophoresis GmbH will now support us in the global distribution of our Collagenase NB portfolio.

Your way to Collagenase NB products – Q & A

Where do I order my products?

For all Research Grade Products SERVA is the exclusive supplier worldwide.

Nordmark remains the supplier for GMP Grade Products in the USA, UK, and EU (except Germany and Austria).

If you like to order GMP Grade Products from other regions SERVA is your selling partner.
