Safety Data Sheet acc. to OSHA HCS

Printing date 04/12/2023

Reviewed on 04/12/2023

Trade name: Neutral Protease AF GMP Grade from Clostridium histolyticum

· Precautionary statements

Wear protective gloves/protective clothing/eye protection/face protection.
If on skin: Wash with plenty of soap and water.
IF INHALED: Remove person to fresh air and keep comfortable for breathing.
If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
If experiencing respiratory symptoms: Call a poison center/doctor.
Take off contaminated clothing and wash it before reuse.
Classification system:

· NFPA ratings (scale 0 - 4)

· HMIS-ratings (scale 0 - 4)

- · Other hazards
- · Results of PBT and vPvB assessment:
- · **PBT:** PBT assessment not available.
- · **vPvB**: vPvB assessment not available.

3 Composition/information on ingredients

- · Chemical characterization: Substances
- CAS No. Description: 9001-92-7 Proteinase
- · Identification number(s):
- EC number: 232-642-4
- · Index number: 647-014-00-9
- · Description:
- MW: ca. 34000

4 First-aid measures

- · Description of first aid measures
- · After inhalation: Supply fresh air; consult doctor in case of complaints.
- · After skin contact:
- Immediately wash with water and soap and rinse thoroughly.
- Remove contaminated clothing immediately.
- · After eye contact:
- Rinse opened eye for several minutes under running water. Remove present contact lenses, if easy to do, and continue rinsing. Consult ophthalmologist In case of complaints.
- After swallowing:
- Wash out mouth. Drink plenty of water and supply fresh air. Consult doctor if you feel unwell.
- Most important symptoms and effects, both acute and delayed No further relevant information available.
- *Indication of any immediate medical attention and special treatment needed No further relevant information available.*

5 Fire-fighting measures

- · Extinguishing media
- · Suitable extinguishing agents:
- *CO₂* extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam.
- \cdot Special hazards arising from the substance or mixture
- Formation of dangerous gases or vapours is possible in case of fire.
- In case of fire, the following can be released:
- Nitrogen oxides (NOx)
- Carbon monoxide and carbon dioxide
- Sulphur oxides (SOx)
- Advice for firefighters
- · Protective equipment: Wear self-contained respiratory protective device.

6 Accidental release measures

Personal precautions, protective equipment and emergency procedures Wear protective clothing. Ensure adequate ventilation Avoid formation of dust. Do not inhale dusts.
Environmental precautions: Do not allow to enter sewers/ surface or ground water.

- *Methods and material for containment and cleaning up Dispose contaminated material as waste according to item 13. Pick up mechanically.*
- · Protective Action Criteria for Chemicals
- PAC-1: Substance is not listed.
- **PAC-2:** Substance is not listed.
- PAC-3: Substance is not listed.
- Reference to other sections
 See Section 7 for information on safe handling.
 See Section 8 for information on personal protection equipment.
 See Section 13 for disposal information.

7 Handling and storage

- *Precautions for safe handling:* Ensure good ventilation/exhaustion at the workplace. Prevent formation of dust.
- · Information about protection against explosions and fires: Protect against electrostatic charges.
- · Conditions for safe storage, including any incompatibilities
- · Storage:
- \cdot Requirements to be met by storerooms and receptacles: Store at +2 to +8 °C
- · Information about storage in one common storage facility: Not required.
- Further information about storage conditions: Keep receptacle tightly sealed and store in dry conditions.
- Specific end use(s): No further relevant information available.

8 Exposure controls/personal protection

- · Control parameters
- · Components with limit values that require monitoring at the workplace: Not required.
- · Additional information: The lists that were valid during the creation were used as basis.

· Relative density:	Not determined.
• Other information	
· Appearance:	
· Form:	lyophilisate
• Important information on protection of environment, and on safety:	of health and
• Danger of explosion:	Product is not explosive. However, formation of explosive dust-/air mixtures are possible.
• Molecular weight	~34,000 g/mol

10 Stability and reactivity

- · Reactivity: No further relevant informations available
- · Chemical stability:
- Thermal decomposition / conditions to be avoided: Denaturation of proteins by strong heating.
- · Possibility of hazardous reactions:
- As the product is supplied it is not capable of dust explosion; however enrichment with fine dust causes risk of dust explosion.
- · Conditions to avoid: thermal decomposition: protein denaturation
- · Incompatible materials: No further relevant information available.
- Hazardous decomposition products: In case of fire: See Section 5

11 Toxicological information

- · Information on toxicological effects
- · Acute toxicity: Based on available data, the classification criteria are not met.
- on the skin: Causes skin irritation.
- on the eye: Causes serious eye irritation.
- · Sensitization: May cause allergy or asthma symptoms or breathing difficulties if inhaled.
- · Specific target organ toxicity single exposure: May cause respiratory irritation.
- · Additional toxicological information:
- · Carcinogenic categories
- · IARC (International Agency for Research on Cancer) Substance is not listed.
- · NTP (National Toxicology Program) Substance is not listed.
- · OSHA-Ca (Occupational Safety & Health Administration) Substance is not listed.

12 Ecological information

- · Toxicity:
- Aquatic toxicity: No further relevant information available.
- Persistence and degradability: No further relevant information available.
- · Bioaccumulative potential: No further relevant information available.
- *Mobility in soil:* No further relevant information available.
- Results of PBT and vPvB assessment:
- *PBT:* Not applicable.
- · vPvB: Not applicable.
- Other adverse effects:
- · Additional ecological information:
- · General notes:

Do not allow product to reach ground water, water course or sewage system.

Water hazard class 1 (Self-assessment): slightly hazardous for water

13 Disposal considerations

· Waste treatment methods

· Recommendation:

Disposal must be made according to official regulations.

Must not be disposed of together with household garbage. Do not allow product to reach sewage system.

- · Uncleaned packagings:
- · Recommendation:

Disposal of uncleaned packagings must be made according to official regulations in the same manner as the product.

• Recommended cleansing agent: Water, if necessary with cleansing agents.
